## Description

Jeanneau NC33 - 2018 model presented with a high specification - Competitively priced at £239,950

This example is fully loaded with almost every conceivable extra and all the key features you'd expect from a boat of this size and quality. The highlights include:

- The larger Twin 220hp Volvo Penta Inboard Engine option with only 252hrs total hours
- Volvo Joystick Position Control - For easy berthing
- Bow thruster
- Upgraded 12inch Raymarine Axiom Plotter with engine data connection
- Webasto Electric sliding Roof
- Webasto cabin Heating
- Premier Pack trim & equipment including Walnut finish Interior, Teak Cockpit floor & stern platform, full aft enclosure/canopy and lots more.

As you step aboard the boat, the open aft cockpit with L-shaped seating invites you to relax, the door to the saloon can open wide to provide a flowing atmosphere between the interior and exterior spaces. The exterior cockpit also has sun protection via frame and Bimini.

As you walk inside you have the galley and helm area to starboard and your saloon seating to port. The galley has a counter top that folds up and down depending on if the galley is in use or if you are in entertainment mode. A practical & attractive feature to give you more simplicity when you are not preparing anything in the galley. The helm controls are straightforward and pleasingly arranged. On the starboard side next to the helm position, there is a sliding door out to the side deck, for easy access to the exterior.

The saloon has a convertible settee and a convertible seatback which can also create a dual forward facing pilot seat for cruising. Plenty of outlets and storage throughout.

The two cabins below are incredibly spacious. As you go down the few steps forward, to your starboard is a bright open head, forward is your full beam master cabin with an island bed and to port/down aft is your guest cabin with a large double berth as well. On the exterior, you can comfortably walk around the starboard side, and access your anchoring equipment, docking cleats and sun pad on the bow.
